Bug Bounty Hunter

Reward: 20000 OPS tokens

Participation: If you find that there is an operation failure due to the website

itself during the operation of the required instructions on the test network,

It can be reported in time via email or community assistants. Once adopted, it

will be issued to users who report bugs after the mainnet goes online.

20,000 OPSs will be rewarded to its reserved Ethereum wallet address.

Activity Details:

When multiple users submit the same bug, the user who submits the bug first

will be rewarded for the bug;

The same user can submit multiple bugs, and the reward is calculated

according to the number of adopted bugs;

Users can iterate through the Opswap Github version to check whether the

suggestions have been adopted;

Once the suggestion is adopted, we will contact you by email, so please be sure

to leave your email address.

This is a testnet, and the best way you can help us is to test it. When you

encounter problems in the test, you can

Send questions to bug@opswap.io

We are working hard to prepare code for the mainnet, and your feedback is a

key part of it. We will give users who participate in the test

Give generous rewards.
